ROB SIDWELL AND HIS CATFISH.

(Dover News.)

While running his trotline Monday morning Rob Sidwell thought sure he had hooked a whale. By careful work and a display of coolness he landed a big catfish in his johnboat. It weighed over thirty-five pounds—nearly half as much as Rob himself, and he is now out for a bigger catch. It will take a pretty big fellow to bring him up to the record of his little sister, Viola, who summer before last waded out in shallow water and caught and bore triumphantly to shore in her arms a 25-pound fish, using only her bare hands for line, hook and bait.

On the seventh of July, 1912, two years ago almost to a day, Rob caught a catfish weighing 88 1/2 pounds. Big catfish have no business fooling around Rob's fishing grounds.

PRESIDENT READ MAKES STATEMENT

**Said That Keeping Maysville in
the Race Was Not a Hard
Problem if Everyone
Puts a Shoulder
to the Wheel**

**Pitching Staff to Be Strengthened—
More Money Needed to Keep
Team Running—Committee
to Solicit Funds Today**

President Read of the Ohio State League was in Maysville yesterday and met with the Directors of the Maysville club last evening and discussed with them the local baseball situation. President Thomas A. Keith presided at the meeting and there was a general discussion of how to increase the team's efficiency.

President Read said: "Keeping Maysville in the race is not a hard problem if everyone will put a shoulder to the wheel. This is known as a bad year in baseball, therefore it is necessary for everybody in Maysville to be courageous as in the past. This city's baseball record has ever been an honorable one and there must be no retreat at this time. Lexington, Charleston, Chillicothe, Portsmouth and Huntington are all fortified for the new campaign and all know that Maysville is to be reckoned with."

It was the opinion of President Read and the Directors that the pitching staff needs strengthening. The club's attack generally is all that is required, therefore, the defense is in need of improvement.

President Read said that in Pitcher Utrecht Maysville drew a prize from the defunct Paris team. He is a left hander. Lines are out for another Southpaw and also for a new right hander.

Tightening up the team and a cheerful response from Maysville sportsmen will provide this season with a good finish.

Manager Montgomery will bring the players home from Portsmouth tomorrow morning. In the afternoon they go into conflict at League Park with the Lexington Colts. Empire Arundel will officiate.

A committee to solicit funds to keep Maysville in the race will start today and will call upon every merchant in the city for any help that can be given. When they call upon you, Mr. Merchant give them a helping hand. They need your help and you should keep the grand old game in Maysville.

"COLD CHECK" LAW IN FORCE.

The Cold Check law, which was passed at the last session of the Legislature, is now in full force.

This is one of the most important measures passed during the session of the Legislature and was enacted for the protection of the merchants, business men and others, who have been defrauded by persons giving checks on banks without having any money on deposit. The law is very plain, and there can be no excuse offered for any person who attempts to violate same. When a person gives a check on any banking house he must have on deposit at the time enough money to cover the amount called for by the check, otherwise he is subject to prosecution.

The law is divided into sections, naming classes of punishment. If the check is less than \$20, the punishment is a fine not exceeding \$100, or confinement in the county jail for not more than thirty days. If the check is over \$20, the punishment may be from one to two years imprisonment in the penitentiary.—Winchester Sun.

O. S. L. DOPELETS.
(Tuesday's Portsmouth Times)

Maysville will play at Portsmouth Tuesday, Wednesday and Thursday. The Cubs, composed of a hard hitting bunch, expect to have something to say concerning the whereabouts of the flag for the second half. The team is now under the management of Roy Montgomery, who piloted the Zanesville team several seasons ago. Johnny Baggan played under him and is authority for the statement that he is one of the greatest characters in the game. He will make those Cubs play ball, or he will get men who will. Montgomery has given up the game for good—at least he says he has. He was one grand felder in his day and a most timely hitter.

President Robert W. Read of the Ohio State league stopped off in Portsmouth Monday night, returning to Columbus early Tuesday morning. He was quite cheerful over the outlook in O. S. L. circles, claiming that the six cities now composing the organization would go through the second half of the season with colors flying. He was particularly impressed with the situation at Huntington and Charleston, where the fans raised a huge bunch of money Monday over \$2,000 was subscribed at Huntington on Monday in less than four hours. 200 citizens subscribing \$10 each. This puts the team's finances in splendid shape and means the Blue Sox will elix through with bells on. The situation at Charleston is in equally good shape. President Pennywitt notifying President Bob that the Senators would be fighting desperately when the season came to a close. There never was any question about Portsmouth, Chillicothe and Lexington. The Maysville owner have gained the reputation for being game and they, no doubt, will stick to the ship.

With the pruning of the dead limbs, Ironton and Paris, from the Ohio State league, came the lopping off of one umpire, Charles Shaffer, of Chicago, setting the axe. President Read stated Monday evening that Shaffer asked for his release, owing to the illness of his good wife. Shaffer left at once for his home in the Windy City, expecting to officiate in the semi-pro games around the great city. Shaffer stated that he had been royally treated by the fans throughout the circuit, while the press had been especially gracious to him. He admitted in his letter that he had made many mistakes, but the job was new to him and that was expected. He is a whole-souled fellow, whose streak of honesty is as broad as an army blanket. He did not have an enemy in the league, even if some of his decisions were off color. He was so all fired good natured that when a player did have a righteous kick to register Shaffer was so gentle in his apology that it brought smiles of laughter from the player, the audience generally siding with the arbitrator.

FLIES FEAR ELECTRIC FANS

About the only thing a fly or mosquito is afraid of is an electric fan.

While it is not known why these little pests fear the whirling blades, it is certain, however, that an Electric Fan will keep flies off the windows and show cases, and from the candy, vegetables and other foodstuff exposed for sale, even though the breeze is not allowed to play over the places or goods to be protected. Merchants find the Electric Fan invaluable for keeping flies out of their stores. If a fan is placed near the main entrance to the store, so that the air current flows toward the doorway, very few flies will enter.

The fly, that deadliest of household pests, likes stagnant air and hot, stuffy rooms. It takes no comfort and lingers not where Electric Fans constantly and vigorously allow clean, pure, cool air to abundantly circulate in every nook and corner.
